Spam  
1

Phishing  
4

Kontoer  
kompromittert

```
graph LR; A[Spam 1] --> D[Kontoer kompromittert]; B[Phishing 4] --> D;
```

The diagram is a flowchart with a white background. On the left, there are two rounded rectangular boxes stacked vertically. The top box contains the text 'Spam' followed by the number '1' on a new line. The bottom box contains the text 'Phishing' followed by the number '4' on a new line. On the right, there is a single larger rounded rectangular box containing the text 'Kontoer' followed by 'kompromittert' on a new line. Two horizontal lines with right-pointing arrowheads connect the boxes on the left to the box on the right. The top line starts from the right side of the 'Spam 1' box and ends at the left side of the 'Kontoer kompromittert' box. The bottom line starts from the right side of the 'Phishing 4' box and also ends at the left side of the 'Kontoer kompromittert' box.
